

**BEFORE
SUNSHINE,
RAIN.
AFTER
SUNSHINE,
RAIN.**

CONDITIONS

- Business-as-usual operations produce safe food by design
- Unusual conditions or events can result in Business as usual '**Flexing**' to deal with some challenges
- When BAU breaks down, people start to do what they feel is the right thing
 - Is your food safe when your business is not operating as Usual?

ACTIONS

- **We will exercise more**
 - *“We don’t rise to the level of our expectations, we fall to the level of our training” Archilochus*
- **Increase our state of readiness/our level of preparedness**
 - Objectives
 - Structures
 - Resources
 - Plans
 - Communications

OBJECTIVES

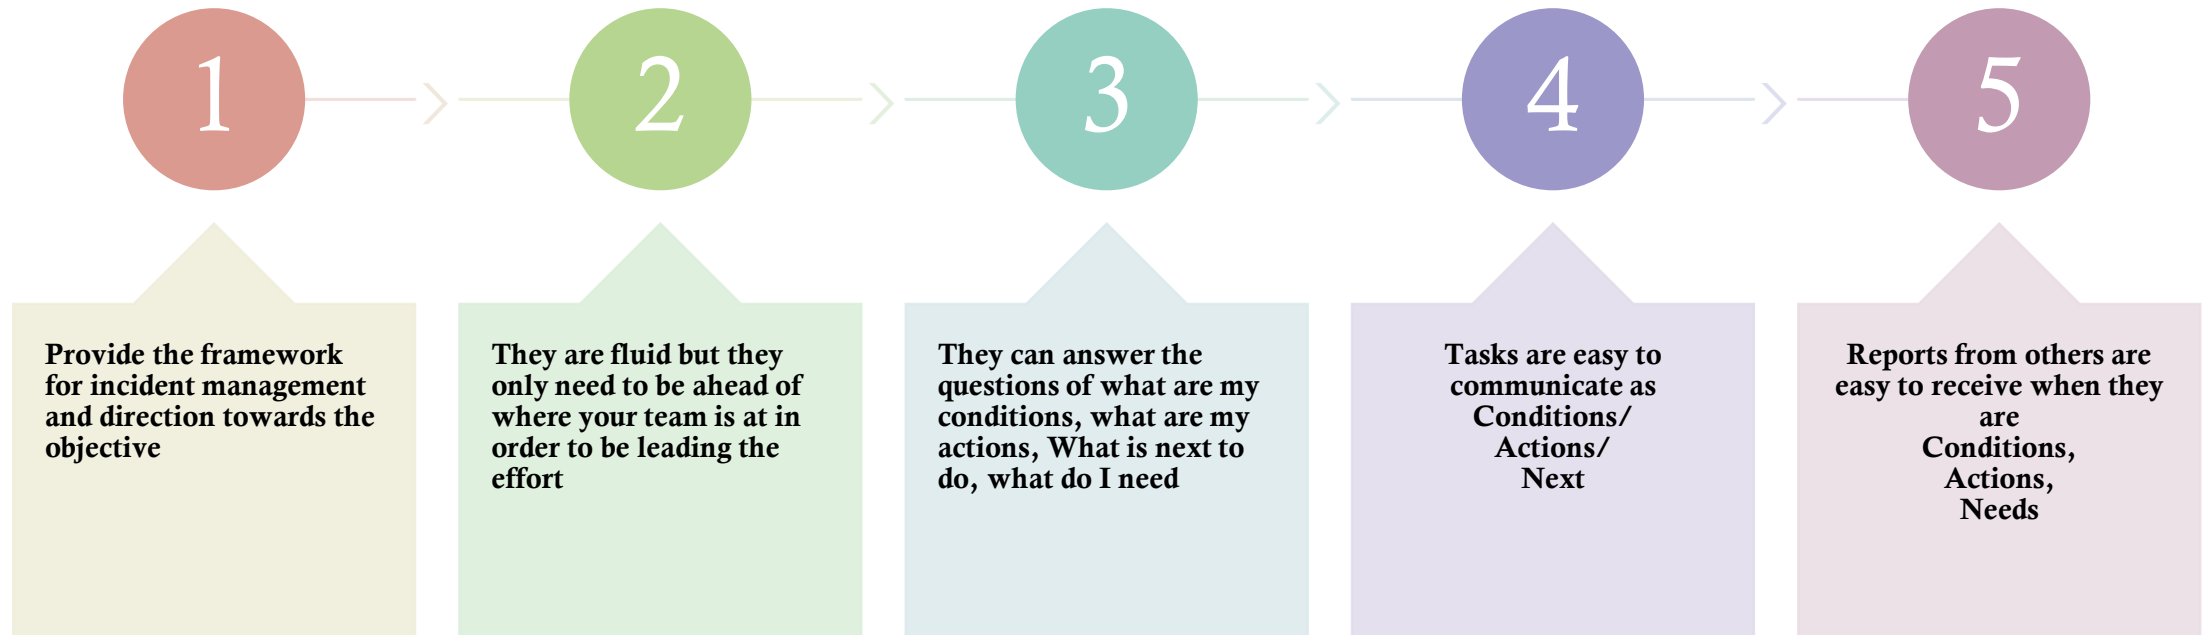

- The way the world creates order from chaos
 - Specific and measurable goal to be achieved within a set timeframe
 - Objectives
 - Kill no one
 - No life changing injuries to your own people
 - Don't bankrupt the business
 - Return to business as usual/
Business as new normal
- Food Safety is never in doubt**
-

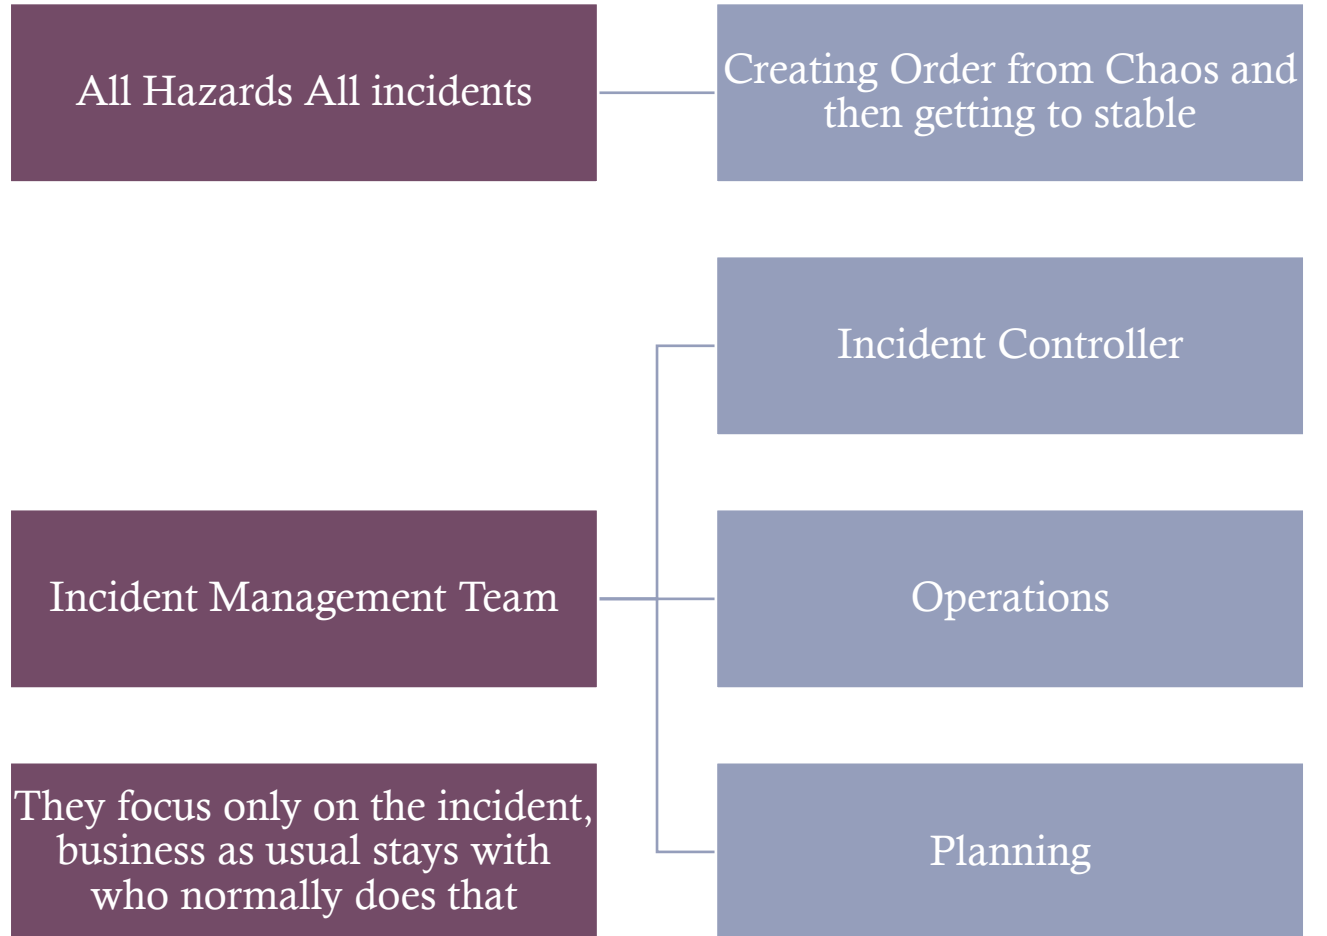

-
- Standing around doing nothing is sometimes the best action for now
 - Once your team is on the field, they have to play to allow you to see opportunities to improve
 - Let your prepared plans get put into action while you collect information for the next period.
 - Build your Critical Incident Response to be for All Hazards/All incidents

No such thing as bad weather, just poor clothing choices
-

PLANS

STRUCTURE

RESOURCES

Knowing what you have now

Where can you get what you might need

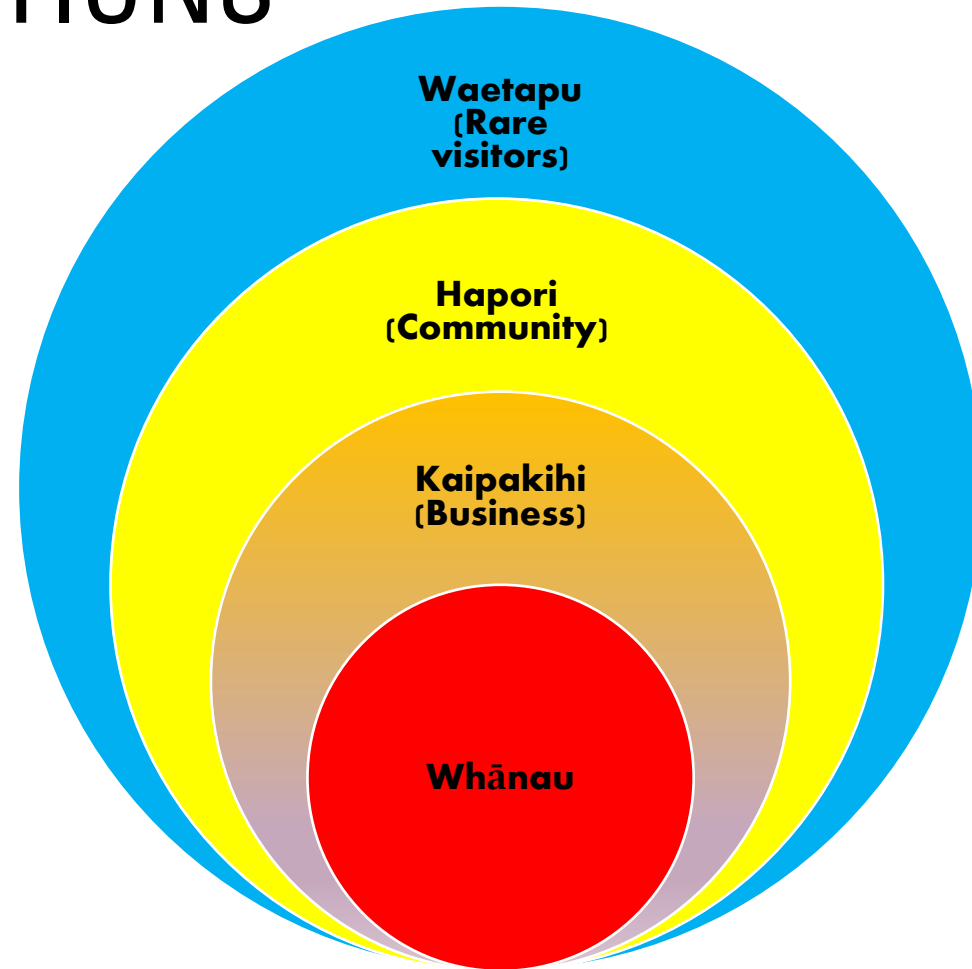

Who you might need to help

All the stuff you can have
set up ready to go for
foreseeable events

COMMUNICATIONS

CANN REPORT

Conditions

We understand our current plans are a good start to build around

Actions

We will build up our business to be able to have an event @ 430pm on Xmas eve and know that it will be OK

Next

We will improve via exercise, we will drill to build skills.

Needs

If you need some guidance or support please do look me up
